

# Inquiry under bounds

## 1. Part 1: Rationality at the crossroads

Develops and contrasts two approaches to the study of rationality: bounded rationality and the standard picture.

## 2. Norms of inquiry

Develops a reason-responsive consequentialist view of rational inquiry.

## 3. Defending the view

Gives three arguments for the reason-responsive consequentialist view.

## 4. Applying the view

Uses the reason-responsive view to shed light on bounded rationality, zetetic epistemology, and the Standard Picture
